## ***Ending the Contingency Plan for Remittance Advice (RA) and Charging for PC Print, Medicare Remit Easy Print (MREP), and Duplicate RAs***

### **Provider Types Affected**

Physicians, providers and suppliers submitting claims to A/B Medicare Administrative Contractors (A/B MACs) carriers, Durable Medical Equipment Regional Carriers (DMERCs), DME Medicare Administrative Contractors (DME MACs), Fiscal Intermediaries (FIs), and/or Regional Home Health Intermediaries (RHHIs) for services provided to Medicare beneficiaries.

### **Impact on Providers**

This Change Request (CR) updates the *Medicare Claims Processing Manual* (Publication 100-04) for ending the contingency plan for Electronic Remittance Advice (ERA), and instructs contractors about charging for PC Print, Medicare Remit Easy Print (MREP), and duplicate Remittance Advice (RA).

### **Background**

This article is based on Change Request (CR) 5308 which

- Updates the *Medicare Claims Processing Manual* (Chapters 22 and 24) to include the end of the contingency period for Electronic Remittance Advice (ERA) effective October 1, 2006; and
- Provides instructions to Medicare contractors (A/B MACs, carriers, DMERCs, DME MACs, FIs, and RHHIs) regarding charging for:

- Generating and mailing provider requested duplicate remittance advices (RAs). There is no current CMS instruction for contractors to charge for generating duplicate remittance advice (when provider has already been sent a remittance advice – either in electronic or paper format) and mailing in case of paper remittance advice. Therefore, CR 5308 informs Medicare Contractors that they are now allowed to charge to recoup their cost to generate a duplicate RA if the request comes from a provider or any entity working on behalf of the provider.
- Making PC Print or Medicare Remit Easy Print software available to providers by CD/DVD or any other means when the requested software is available for free to download. Contractors may charge up to \$25.00 for each mailing to cover their cost(s).

Under the Health Insurance Portability and Accountability Act (HIPAA) of 1996, an ERA sent to a provider **on or after October 16, 2003** is required to be a standard HIPAA compliant ERA, and the ERA standard adopted under HIPAA was ANSI ASC X12N transaction 835, Version 004010A1.

CMS implemented a contingency plan (as of October 16, 2003) to continue to accept and send HIPAA-compliant and non HIPAA-compliant transactions from/to trading partners beyond October 16, 2003, for a limited time.

**CMS ended the contingency period for claims in October 2005**, and in a Joint Signature Memorandum (JSM/TDL-06518) issued on June 28, 2006, CMS instructed Medicare contractors that it is **ending the contingency period for ERAs on September 30, 2006**.

CR 5308 instructs Medicare Contractors that, on or after October 1, 2006, all ERAs must be provided in the standard HIPAA (ANSI ASC X12N 835 version 004010A1) format.

## Implementation
